And What Have You

By BOB CRAIG

One has to admit that the ways of the Legislative process are indeed a mystery to behold. How a Senate Subcommittee could take the three hospital district bills as submitted to them by our Senator, Jack Hightower, put them all together and then pull something out of the hat like the bill that was to have had a hearing in Austin Wednesday?

And the strange thing is that the idea just might work.

It is just possible that one district might operate three hospitals within the county and do a better job than three separate districts might do.

The bill, as it came out of the subcommittee, is still a long way from the Governor's desk and there is no telling what form or shape it could take by then—this is especially true if it undergoes as many changes during the other legislative processes as it did in this first round.

But if the bill is finally passed in the shape that it is in now, we suspect that it would be a better bill for Hamlin than it might first appear to be.

With the current bill still in the first stages of the Legislative process, it is too early to begin worrying about all of the pros and cons but at the same time we don't believe it is time to throw up our hands and say that this idea couldn't work. If it is the best we can come up with, then it is possible that we can find a way to make it do the job for us.

We would like to extend a belated congratulations to the Hamlin Piper Band for winning their fifth consecutive Sweepstakes award. When Band Director Tim Jones wins nine of these coveted awards over a 14-year period you begin to start taking them for granted.

This is unfortunate because the award this year means just as much to this year's band students as did the first sweepstakes to that group of band students.

If anything, we suspect that the awards get harder and harder to come by. It would be all too easy to become complacent and expect the awards just because the bands in the past have earned them.

We would also like to extend this congratulations to the Junior High Band for its fine year also.

You will have an opportunity to hear both these bands as well as the sixth grade and stage bands in concert next Thursday evening, May 3.

Almost every day you learn about

Committee Hearing On Hospital District Bill Held In Austin Wednesday

A Senate committee hearing was to have been held in Austin yesterday (Wednesday) afternoon to discuss a revised Jones County Hospital District bill which would create a single hospital district for the county. Several from Hamlin were expected to be on hand for the hearing but no details of the meeting were available in

Hamlin before press time.

The original bill calling for establishment of three separate districts in the county was rewritten by a sub-committee, and the new version was to undergo a hearing at 4 p.m. Wednesday.

The new bill calls for a single district covering all of Jones County and a portion of Haskell County.

If the legislation is passed, the voters of Jones County will have the option of approving or disapproving the district in an election.

A separate election will be held for voters in the Stamford Hospital District to determine if the district will be dissolved. If so, all assets and indebtedness would be assumed by the Jones County Hospital District.

The legislation specifies that the county district, if created, would assume the outstanding indebtedness incurred by towns for hospital purposes prior to creation of the district.

The bill would give the hospital district power to assess and collect taxes to finance hospitals.

It further specifies that nine temporary district directors would be appointed by the Jones County Commissioners Court — two from Anson, two from Hamlin, two from Stamford and three from outside these three communities.

NEINDA PHILOSOPHER—

Points Out Factor In Watergate Caper Which Has Gone Unnoticed

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One views the Watergate affair from a distance this week.

Dear editor:

I don't know how many hundreds of thousands of words have been written and spoken about the celebrated Watergate affair, more than I was able to read and more I suspect than some high-placed people in Washington wanted to hear, but through it all nobody has paid any attention to one of the most striking and unsettling things about the illegal bugging.

It's the gross incompetence of the experts.

Here you had a highly trained, educated ex-C.I.A. man with 20 years' experience in the super-secret intelligence gathering agency of the U.S. Government, the outfit that's supposed to know how many

what the Viet Cong had for breakfast yesterday, how much sugar cane castro harvested last month and other things too secret to mention, and he and his bugging partners, including an ex-F.B.I. man, flubbed the whole thing. Caught by a night watchman.

Why, any burglar who failed to learn the rounds of a night watchman in any small town in America wouldn't even have the respect of his fellow burglars. Be the laughing stock of the underworld.

I'll tell you, we may have gotten used to a certain amount of incompetence in this country, you see several million automobiles recalled to replace defective parts or have a refrigerator or washing machine or T.V. set break down in the fourth month and you grow accustomed to the idea, but to see men who had outstanding records with the C.I.A.

face trying to eavesdrop on a political headquarters located down hall... it makes you wonder if anybody in high places in this country knows for sure what's going on in the world. Somebody better recount those Russian missiles and see if Castro is using saccharin in his coffee.

I've always said if you give the experts enough time and money they'll eventually find out what a lot of people have known for years, but I have to take that back. What they'll do is wind up in jail. A thing like that undermines a man's confidence.

Yours faithfully,

IT'S BEEN A LONG YEAR

Just a little longer . . . and homework, and exams will be over and then VACATION TIME. It is so good to have something to look forward to . . . swimming, fishing, ball, all of those wonderful activities.

Yes, it is good to have something to look forward to. I look forward each week to an opportunity to worship with others in the House of the Lord. I look forward to the hymns of praise, to the time of Bible study, and to the message brought by God's servant. Why don't you join me this week at church and participate in these joyful moments.

Deadline Near For Notaries

Secretary of State Mark W. White Jr. announced that all presently commissioned Notaries Public desiring re-appointment for the new term which begins June 1, 1973 and ends June 1, 1975, must pay the required fee and file a new oath and bond with the County Clerk between May 1 and May 15.

Secretary of State White further stated that any person not now a Notary Public who desires appointment for the beginning of the new term on June 1, should apply to the County Clerk before May 14. The required application forms may be obtained from the County Clerk.

TWO INJURED IN WRECK REPORTED TO BE IMPROVING

Judy Contreras, 19, daughter of Mr. and Mrs. Trine Contreras, reported Tuesday to be improving at Hendrick Memorial Hospital in Abilene. She suffered a broken collar bone, broken cheek, broken jaw, ruptured ear drum and multiple bruises in an accident here Apr. 14 on South Central.

Miss Contreras was scheduled for surgery yesterday (Wednesday) for the cheek and jaw injuries.

Her brother, Andy, 15, a passenger in the car, was released from the Abilene hospital Friday after receiving treatment for a collapsed lung, fractured ribs and multiple cuts and bruises.

The accident occurred at 6:44 p.m. at the McCaulley Y intersection. Driver of the other vehicle was James Spalding, 17. He was accompanied by his brothers, Joe, 15, and Ted, 14. They were not hospitalized.

Motorists Get Reminder to Stop for Buses

AUSTIN — A reminder on the State law about motorists stopping for school buses was issued today by Colonel Wilson E. Speir, director of the Texas Department of Public Safety.

Speir said the law, which applies on city streets as well as rural highways, requires motorists moving in either direction on the same roadway or street with a school bus to stop and remain stopped as long as the flashing top red lights on the bus are in operation.

He said the problem is becoming more serious in cities due to increased use of school buses in urban school districts.

There are only two exceptions to the law on stopping for loading or unloading a school bus: Those vehicles on another roadway of a divided highway (divided by median or physical barrier) are not required to stop, and stops are not required if the bus has stopped in a

loading zone of a controlled access highway where pedestrians are not permitted to cross.

Speir said the problem of school bus accidents is of concern to law enforcement officials and educators throughout Texas. Only a few weeks ago, the Travis County Grand Jury urged the news media to publicize the law about stopping and not passing a school bus which is loading or unloading children.

The grand jury noted that serious criminal charges might result if a motorist disregards this law.

Charges Filed

Charges of aggravated assault with a motor vehicle were charged against James Aubrey Spalding, 17, in the office of County Attorney A. J. Smith Tuesday morning by the Hamlin Police Department, according to Police Chief Ed Wheat.

The charges were filed after the Apr. 14 accident at 6:44 p.m. in the 900 block of South Central

when Spalding's car, a 1970 Chevrolet Chevelle, was in collision with a 1965 Ford Mustang driven by Judy Contreras, 19. Judy and her brother, Andy, 15, were seriously injured in the accident.

SHOPLIFTING

...LEADS TO PRISON

Don't think you'll get off with just a reprimand if you get caught stealing merchandise...shoplifting is a crime and is punishable by law. Because of rising costs due to "lost" merchandise, stores are being forced to prosecute shoplifters and you're not going to be the exception, regardless of your age. Stop and think about it; is it worth being arrested and getting a police record for a \$2.99 item...or any other item. Remember the consequences!

Clayton's Corral

In response to numerous inquiries from farmers this week about freeze damage to small grains, County Agent Kirby Clayton gave the following analysis of the situation.

First of all it's impossible to determine the extent of freeze damage at this time. Most of the wheat was still wrapped up in the boot stage which undoubtedly gave some protection to the wheat head.

If there is freeze damage, the seed head should show some signs of brown and it will be softer than usual. If these signs are not present, it may be necessary to wait 18-20 days after the freeze and re-check the male and female flowers of the wheat head.

Dinner Set Saturday At Oak Grove Church

The YWA's of Oak Grove Baptist Church will sponsor a dinner Saturday at 6 p.m. in the Fellowship Hall. Alice C. Marshall is president and Mary E. Esco is advisor.

The menu will include fried chicken, green beans, broccoli and rice, yum yum salad, assorted pies, rolls, coffee and tea. The dinner is open to the public. Plates are \$1.50 each.

If the male and female flowers are rendered sterile by the freeze (as indicated by white heads) then production will be curtailed accordingly.

In late wheat or wheat that was grazed down to where there is no boot, just split the stem down middle and look for little brown pimples on the immature head. If these are present there is damage.

Even the wheat experts are unable to tell the exact extent of the freeze damage at this time, but from past experience it looks like the damage, if any will be rather light.
